教學內容	管理資訊系統,是以電腦、介養性的資訊,是以電腦、所與與不統,是以電腦、所與與不於一樣,所與與一個人類,所與與一個人類,不可以,不可以,不可以,不可以,不可以,不可以,不可以,不可以,不可以,不可以	Syllabus	The major subjects of this course are as follows: Management Information System (MIS), an integrated system based on computer and information technology, provides organizations with information for supporting routine works and decision activities. Organizations are able to achieve various goals through decision-making procedures with the assistance of management information systems. The objective is to study the employment of information technology, considering aspects from organizations and systems, for different levels of organizations. Topics comprise various information systems, such as Accounting Information Systems, Counting Information Systems, Executive Information Systems, Market Information Systems, Production Information Systems, Financial Information Systems, Human Resource Information Systems, Information Systems, Strategic Management Information Systems and Electronic Commerce. With the introductions and discussions on various management

information systems, students are
able to learn about how organizations
utilizing information technologies to
support corporate routines, decision
activities and personal knowledge
works.
