# 朝陽科技大學 092學年度第1學期教學大綱
# Experimental General Chemistry（Ⅰ）普通化學實習(一)

| | | | |
|---|---|---|---|
| 當期課號 | 1642 | Course Number | 1642 |
| 授課教師 | 陳齊聖 | Instructor | CHEN,CHEE SHAN |
| 中文課名 | 普通化學實習(一) | Course Name | Experimental General Chemistry ( Ⅰ ) |
| 開課單位 | 應用化學系(四日)一A | Department | |
| 修習別 | 必修 | Required/Elective | Required |
| 學分數 | 1 | Credits | 1 |
| 課程目標 | 理論加上實驗永遠是最完美的組合，幫助學生養成對已知化學理論加以求證的習慣，並學習一般化學藥品的處理方法。完成這些訓練不單單對化學反應或化學藥品有更深一層的了解，同時在遇到意外時，有能力去準備必要的措施。 | Objectives | Introductory experimental course deals with a great deal of knowledge and innovation. In addition, this course illustrates many principles of general chemistry. Students should learn how to apply the chemical science in our daily lives. This course contains 11 experiments:1. Chemical equilibrium 2. The titration of acid and base 3. Reversible oxidation-Reduction color changes 4. The study of oxidation of iron 5. Introduction to Chromatography; Paper Chromatography 6. Analysis of cations 7. Analysis of anions 8. How to make a good detergent? 9. Shampoo (part I) 10. Shampoo (part II) 11.Hand lotion |
| 教材 | 課堂講解<br>實際操作 | Teaching Materials | Lectures and Hands-on experiments |
| 成績評量方式 | 實驗態度40%, 預報15%, 平時考15%, 結報15%, 期末考15% | Grading | Attitude 40%, pre-Lab. report 15%, Quiz 15%, Lab. report 15%, Final Exam. 15% |
| 教師網頁 | | | |
| 教學內容 | 透過實驗的過程來學習並驗證化學基礎理論,還有了解一些生活現象的發生 | Syllabus | Through designed laboratory activities, the students could experience and understand basic chemical theories and chemical phenomena around us. |
