It reinforces and builds on the knowledge of grammar and vocabulary previously acquired by the students. According to the starting level and to the abilities of the students, different approaches are used to achieve the same goal, which is to improve the students" reading, writing, speaking, and listening skills in English. For reaching this goal much effort is put into encouraging the students to use English as often as possible. Students have to understand the importance of English and become more confident and less afraid of speaking English. There are different techniques to motivate the students, such as, inter alia, group work and role playing.
