This course is intended to help student readers to develop skills in the reading and evaluation of analytic and descriptive texts, and other texts with different styles. Students will be exposed to experience diverse pre and post-reading exercises to highlight aspects of good writing, such as structure, rhetorical patterns and other features. Based on this skill, when students explore the rules and methods of essay-writing, they should be able to improve the effectiveness in presenting knowledge and viewpoints. This goal can be reached through the integration of language skills: reading, speaking, and writing and classroom activities such as discussion presentation, etc.
