朝陽科技大學 094學年度第2學期教學大綱
Special Projects on Computer Science and Information Engineering(III) 資訊工程實務專題(三)

當期課號	2068	Course Number	2068
授課教師	王能中	Instructor	WANG,NENG CHUNG
中文課名	資訊工程實務專題(三)	Course Name	Special Projects on Computer Science and Information Engineering(Ⅲ)
開課單位	資訊工程系(四日)四A	Department	
修習別	必修	Required/Elective	Required
學分數	1	Credits	1
課程目標	資訊工程實務專題	Objectives	This course is designed to analyze and implement a special project for the students of the 4-th year. A project will progress in one and half years and the progress is independent of others. Hence, there is not any progress for each week.
教材	The related books or technical reports on the Web	Teaching Materials	
成績評量方式	成績評量以每週進度與整體進度來評估	Grading	The grading is based on the weekly progress and overall progress evaluation
教師網頁			
教學內容	讓學生利用過去學習的成果與經驗實作一個完整的專題，主要的訓練與學習包含有，規格的研讀與實作，程式語言的進階實作，同組成員的溝通與分工合作等等。	Syllabus	The goal of this course is to make students to implement a real project according to the previous study and experiments. In this course, student can learn and get many experiments including advanced programming, studying spec., communications with classmates, and so on.
