

朝陽科技大學 095學年度第1學期教學大綱
Design Drafting(1) 設計圖學(一)

當期課號	3443	Course Number	3443
授課教師	郭良印	Instructor	KAO,LIANG YIN
中文課名	設計圖學(一)	Course Name	Design Drafting(1)
開課單位	工業設計系(四進)一A	Department	
修習別	必修	Required/Elective	Required
學分數	2	Credits	2
課程目標	一、工程設計繪圖之透視。二、基礎工程設計繪圖。三、標準化工程設計繪圖練習。	Objectives	This course is divided into five parts: Visual science for technical graphics; Fundamentals of technical graphics; Descriptive geometry; Standard technical graphics practices; Technical graphics in industry. The primary goal of this text is to help the design and engineering student learn the techniques and standard practices of technical graphics, so that design ideas can be adequately communicated and produced.
教材		Teaching Materials	
成績評量方式	平時作業:30% 期中作業:30% 期末作業:40%	Grading	usually work: 30% middle center work: 30% ending work: 40%
教師網頁	-		
教學內容	本課程主要在練習應用設計工具，學習建立簡單2D模型，並進一步對圖學之工程圖繪製，及尺寸標註的國家標準(CNS)規定有所了解，使能具有製作工程圖之能力。	Syllabus	This curriculum mainly designs the tool in the practice using the computer assistance, the study establishment simple 2D model, and further the chart study engineering plat of plan to, and the size sign note national standard (CNS) stipulated has the understanding, enables to have ability of the manufacture engineering plat .
