

朝陽科技大學 095學年度第1學期教學大綱

Product Digitalization Design Integrated System 產品數位化設計整合系統

當期課號	7742	Course Number	7742
授課教師	黃台生	Instructor	HUANG,TAISHEN
中文課名	產品數位化設計整合系統	Course Name	Product Digitalization Design Integrated System
開課單位	設計研究所碩士在職專班二A	Department	
修習別	選修	Required/Elective	Elective
學分數	3	Credits	3
課程目標		Objectives	
教材	Teaching and Practice	Teaching Materials	Teaching and Practice
成績評量方式	Final Project Presentation and demonstration. Final Examination.	Grading	Final Project Presentation and demonstration. Final Examination.
教師網頁	http://www.cyut.edu.tw/~tshuang/web/		
教學內容	The focus of this course is integration of the marketing, design, and manufacturing functions of the firm in creating a new product. The course is intended to provide student with awareness of the role of multiple functions in creating a new product (e.g. marketing, finance, industrial design, engineering, production). For the manufacturing functions, it emphases four modern manufacturing areas: manufacturing processes, equipment/control systems, and design for manufacturing, and it exposes you to integration of engineering and management disciplines for determining manufacturing rate, cost, quality and flexibility. Topics include process physics, equipment design and automation/control, quality, design for manufacturing, industrial management, and systems design and operation.
