教學內容	瞭解我國國防政策及相關國防資訊，未來國軍須基於「預防戰爭」、「維持台海穩定」、「保衛國土安全」之基本理念，建構「有效嚇阻、防衛固守」的軍事武力外，更將掌握「資電先導、扼制超限、聯合制空、制海，確保地面安全」的建軍指導原則，以「提升三軍聯合作戰整體戰力」為兵力整建重點。	Syllabus	The ROC Armed Forces has been long enduring intimidations from the "verbal attacks and saber rattling" from the People's Republic of China (PRC), and our endeavor to maintain combat readiness is indeed full of challenges. Especially, the People's Liberation Army (PLA) is vigorously transforming itself under its strategic guideline of "winnig a local war under high-tech conditions," and the threat it is posing is more alarming to our national survival and development. In order to negate the increasing threats from the PRC's military satellites, technology of ballistic missile, and information warfare, the ROC Armed Forces will assume a posture of "effective deterrence, resolute defense" under the fundamental concepts of "prevention of war," "maintaining stability in the Taiwan Strait," and "defending the national soil." Besides, it will spare no efforts to follow the guideline of "preempting information & electronic superiorities, keeping hostile unlimited warfare at bay, combining operations to commmand the air and the sea, assuring safety of ground operations, and defeating intruding enemies," to continuously strengthen its prowess in information & electronic arenas, and integrate weapon systems of the ROC Armed Forces so as to establish a "compact but delicate, highly capable" and modernized military force.
